

Dicerna™ Reports Inducement Grant Under NASDAQ Listing Rule 5635(c)(4)

October 1, 2019

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Oct. 1, 2019-- [Dicerna™Pharmaceuticals, Inc.](#) (Nasdaq: DRNA) (the "Company" or "Dicerna"), a leading developer of investigational RNA interference (RNAi) therapeutics, today announced that the Compensation Committee of the Company's Board of Directors approved the grant of inducement stock options to purchase a total of 229,000 shares of common stock to be distributed among 10 new employees, with a grant date of October 1, 2019 (the "Inducement Grant").

The stock options approved under the Inducement Grant were issued pursuant to Dicerna's 2016 Inducement Plan and have an exercise price per share equal to \$14.00, the fair market value on the grant date. The stock options vest over four years, with 25% vesting on the one-year anniversary of the employees' first days of employment with the Company and 1/36 of the remaining shares vesting monthly thereafter, subject to the new employees' continued service relationship with the Company on each such date. The stock options have a 10-year term and are subject to the terms and conditions of the applicable stock option agreement.

The Company granted the stock options as inducement materials to the new employees entering into employment with Dicerna Pharmaceuticals, Inc. in accordance with Nasdaq listing Rule 5635(c)(4).

About Dicerna™Pharmaceuticals, Inc.

Dicerna™Pharmaceuticals, Inc. ("we", "us," "our," "the Company," or "Dicerna") is a biopharmaceutical company using ribonucleic acid (RNA) interference (RNAi) to develop medicines that silence genes that cause disease. The Company's proprietary GalXC™ technology is being applied to develop potent, selective, and safe RNAi therapies to treat diseases involving the liver, including rare diseases, chronic liver diseases, cardiovascular diseases, and viral infectious diseases. Dicerna aims to treat disease by addressing the underlying causes of illness with capabilities that extend beyond the liver to address a broad range of diseases, focusing on target genes where connections between gene and disease are well understood and documented. Dicerna intends to discover, develop, and commercialize novel therapeutics either on its own or in collaboration with pharmaceutical partners. Dicerna has strategic collaborations with Eli Lilly and Company (Lilly), Alexion Pharmaceuticals, Inc. (Alexion), and Boehringer Ingelheim International GmbH (BI).
